ELI B. KELSEY.

Real Estate, Loan & General House

AGENTS.

OFFICE - 25 First South Street, Salt Lake City, P.O. Box 383.

SPECIAL NOTICE.—I am in communication by telephone with all subscribers to the Salt Lake City, Ogden and Park City Telephone exchange.

I am at all times prepared to loan from \$5 to \$50 per cent. of the value of property I sell, at as low interest, on long or short time.

I am not advertising my list of farms and farming lands, during the winter months, but my bulletin boards at my office will describe such properties, and by inquiry of the terms and conditions of sale can be learned at any time.

I have for sale a number of very fine residences, of modern style, and in the most eligible portions of the city, that do not appear elsewhere upon my bulletin boards or in my public advertisements, ranging in price from \$5,000 to \$35,000.

RESIDENCES.

\$600. ROCK HOUSE OF THREE rooms, corner lot 5x10 rods, well located, water close by.

TELEGRAPHIC

The Electric Storm.

Chicago, 17.—In an interview the night manager of the Western Union Telegraph Company stated that the electrical storm throughout the country still continued and regular business was carried on under great difficulties. The disturbance is unlike any heretofore experienced, as it appears to act upon the wires in strong waves, causing the constant changing of the polarity current. Reports from Omaha state that the storm is very brilliant at that point, the illumination being almost as bright as day. St. Paul reports the heavens have a blood red color, the display being grand and fearful.

The great storm extends as far west as Salt Lake. Cheyenne reports the illumination at that point as bright as day. The telegraph company deys a new trick to beat the storm. When, on account of the great induction, it was impossible with one wire, they discovered that by taking two wires from the ground between any two given points, and joining their ends together, instead of the same being grounded, a current was formed that could be successfully worked. In this way eight wires were made to do the service of four between Chicago and Buffalo. All long wires are broken up into short circuits, by which means New York and far western points are reached.

New York, 18.—The electric storm, yesterday, extended from Boston as far west as Ogden, and this morning its influence is still felt in certain localities, so that telegraphic communication is considerably interrupted. Various experiments were tried by telegraphers during the prevalence of the storm to work the wires, and dispose of the great accumulation of business, but with little success, until it was discovered that by taking two wires from the ground between any two given points, and joining their ends, a circuit was formed that could be operated.

Toronto, 17.—The magnetic disturbance to day was the most violent for many years, with the exception of the 18th of April last. Measurement at the observatory shows that in less than two minutes time the horizontal force of the earth's magnetism changed nearly one tenth of the whole.

The U. P.'s New Bonds.

New York, 17.—The Tribune has this: The Union Pacific Railroad Company has had under consideration for some weeks a plan of making a second issue of collateral trust bonds. The new mortgage which was prepared, differed from the former trust bond mainly in the fact that it was made continuous. Securities of branch lines held in the company's treasury were to be passed in trust to secure the payment of the debt.

The new bonds were to bear 5 per cent. interest, and as most of those of the branch lines bear 6 to 7 it was provided that the difference should make a sinking fund. Sidney Dillon said yesterday: The rumors regarding the negotiation of the new bonds are correct. We have signed a contract with Blake Bros. & Co. by which they will take the bonds as fast as we want the money. I can tell nothing more about the matter because the firm asked that I should publish none of the details of the arrangement. What I have told you is all that need be said. We have made the contract, and whenever we need the money we have only to deposit the securities and take our pay for the new bonds.

Lovely New Mexico.

New York, 17.—Governor Sheldon, of New Mexico, was interviewed here today. He said life and property was safe in New Mexico as in the eastern states. The rustlers had been suppressed, and no hostile Indians had been heard of since October 10, 1881. The governor believes New Mexico to be the wealthiest as regards mineral of all the territories. As for fruits and vegetables New Mexico was unparalleled. Under the new order of things, Sheldon said that immigration was pouring in steadily. New towns were springing up, railroad communication was being rapidly developed and the people were growing prosperous and contented.

Dynamite Messenger.

Dublin, 17.—An Englishman named Edward Whittington, was arrested today on his arrival at Northwell Quay, having twenty packages of dynamite caps in his possession. He stated that he was sent from Liverpool by a man unknown to him, to New York, with the parcels, and did not know what was in the parcels.

The Gray Investigation.

London, 18.—In the Commons, last night, Gladstone moved to recommend all of the Section paragraph in the report of the Gray investigation back to the committee. Gladstone explained that to recommend all was necessary because Section's motion to insert his paragraph had been defeated by a motion for the previous question. The motion was agreed to.

Stanford Grows Stylish.

New York, 17.—Ex-Governor Stanford, of California, has leased Vanderbilt's old residence on Fifth avenue near Forty-third street, for the winter, rent \$1,000 monthly. An evening paper says Stanford will signalize his advent by a series of brilliant receptions, and by entertainments during the winter.

Fire.

Otter River, Mass., 17.—The five-set blanket mill, owned by M. S. Frost & Co. Boston, burned to-night. The fire originated in the card room, from a hand lamp; insured.

Philadelphia, 18.—The large bay fork works, of Lawton & Burger, Twenty-Sixth and Poplar streets, burned this morning.

An Alabama Row.

New Orleans, 17.—Times-Democrat Opelika, Ala., special says: A serious riot occurred here last night, in which Jim Roberts, Charley Dix and Charley Griggs were wounded. Pistols and guns were used. The row lasted all night, and the destruction of show windows and lamps was considerable. It seems to have grown out of a general dislike for the city government. About 1,000 shots were fired.

Egypt.

Berlin, 19.—Government continues to decline all attempts of other powers to open exchange notes on the question of Egypt, and until the Anglo-French negotiation is concluded Bismark is determined not to speak.

Cairo, 17.—There is considerable mortality among the troops stationed here. Many soldiers have electric fever.

The "Westphalia."

London, 18.—Passengers of the steamer Westphalia have arrived at Hamburg. The Westphalia will make temporary repairs at Plymouth and sail on Thursday next for Hamburg.

The New York Vote.

New York, 18.—The official vote of the state is about completed. Cleveland's majority 104,000. Cleveland receives 536,200 votes, Folger 842,500; Garfield received two years ago, 555,554.

Suicide.

Tunis, 17.—The Austrian consul in this city committed suicide by blowing out his brains.

Snakes as Life Destroyers.

The loss of life in India due to the ravages of venomous snakes is almost incredible. Yet Consumption, which is as wily and fatal as the deadliest Indian reptile, is winding its coils around thousands of people while the victims are unconscious of its presence. Dr. R. V. Pierce's "Golden Medical Discovery" must be used to cleanse the blood of the scrofulous impurities, for tubercular consumption is only a form of scrofulous disease. "Golden Medical Discovery" is a sovereign remedy for all forms of scrofulous disease, or king's-evil, such as tumors, white swellings, fever sores, scrofulous sore-eyes, as well as for other blood and skin diseases. By druggists. 1

The immense number of testimonials from hospitals and physicians bear the most conclusive evidence of the high esteem in which GOLDEN'S LIQUID BEEF TONIC is held. Ask for Golden's, take no other. Of druggists generally.
